

Print to Mail™ 2

Fold & seal documents quickly and cost effectively...

Now there's a way to eliminate those laborious folding, stuffing and sealing chores. The new Print-to-Mail™ 2 stand alone unit automates office mailings like payroll checks, accounts payable checks, statements, invoices, grade reports, student schedules and W-2's -- all in a matter of minutes!

Print to Mail™ 2 can be used with any laser printer. Simply print on a Print to Mail™ form and place in the input tray. The compact and powerful unit will fold and seal most common constructions. With the lowest cost in the industry, the Print to Mail™ 2 is affordable to any size business or organization.

Reduce Costs

Print to Mail™ 2 forms replace both the envelope and the paper used with conventional mail and can reduce your mail preparation costs up to 50%. (*Results may vary based on the number of mailers and process used to produce them.*) Print to Mail™ 2 forms are available in a number of different formats to cover a wide variety of office mailings and totally eliminate the time consuming, manual steps of folding, stuffing and applying postage.

Versatile Design

In addition to the traditional folding and sealing application, the Print to Mail™ 2 stand alone unit can be used as a folder for promotional materials or other office correspondence requiring a standard or windowed envelope.

Easily Customizable

We can help you format your forms and create a customized Print to Mail™ system for your own application(s).
